## Summary

---

A 4th year student studying Computer Science Engineering in AI&ML. Aspiring to apply my knowledge gained from university courses and personal learning to complete the tasks. Looking for an internship to upgrade my skills.

## Academic Qualifications

---

2021-2025 present	UG(CSE-AI&ML) at <b>SRIT</b> Anantapur	(CGPA:7.53/10.0)
2020-2021	Class 12th State Board of Intermediate Education	(CGPA:7.59/10.0)
2018-2019	Class 10th State Board Of Secondary Education	(CGPA:9.5)

## Mini Project

---

**Title: Command Line Interface for Data cleaning**

**Description:** It is a CLI application for fast data preprocessing, focusing on removing null values, raw data, and float anomalies. This enhanced efficiency in data preparation and ensured high-quality data for analysis and applications.

## Technical Skills

---

**Programming languages:** Core Java, Python, C, web technologies, SQL

**Programming tools:** VS Code, Eclipse, GIT

**Technologies /Applications:** Microsoft Applications, fundamentals of CCNA

## Internships

---

- Done virtual internship on "Process Mining" from AICTE Edu skills during July 2023.
- Successfully completed virtual internship on "Salesforce" by Smartinternz during October 2023.
- Done IBM SkillsBuild Summer Internship Program with CSRBOX on Artificial Intelligence.

## Certifications

---

- NPTEL Online Certification on Introduction to Internet of Things
- Google Cloud Career Launchpad Data Analyst Track

## Curricular Activities

---

- Attended a one-week workshop on Game designing organized by SRIT in association with APSSDC.
